

Milton Primary Academy

Head Boy

MILTON PRIMARY
ACADEMY

Hi, my name is Sam and I am Head Boy of Milton Primary Academy. Today I'll be sharing my journey at Milton with you.

I have not only developed in my learning whilst at Milton, but I have also gained many invaluable life skills. One of my best experiences has been the annual Talent Show which I not only took part in but I also won! I did this with my friends and as a friendship group we gained so much, especially the confidence to perform. Another opportunity that I loved was Kingswood 2018; we had a week full of amazing outdoor adventures. Team work was essential as well as good communication skills. Memories were made with friends and teachers that I will never forget.

Throughout my whole journey, right from Nursery to Year 6, my pathway through primary has been eventful and memorable. The variety of extra-curricular clubs that Milton has to offer means there are opportunities to learn skills and enjoy hobbies that we may never be able to enjoy elsewhere. I have attended the archery club, football and Mad Science just to mention a few. They were so exciting!

All of the trips here encourage us to try new things and help us to be the best we can be, both inside the classroom and out. All of these opportunities are available to any child that attends this school. I hope that some of you here today will be lucky enough join this school and embark on this exciting primary journey.

I will be really sad when it is my turn to leave Milton Primary Academy. Thank you for your time.
